

Immunization Information - Please make sure your child is up to date.

Cut out information below and glue to the inside cover of your daycare children's file folders for a quick reference to make sure they are up to date on their vaccines. Check with your doctor to make sure this chart is still up to date.

Tetanus/Diphtheria: Four doses required by the age of two. Five doses required for school entry.

Polio: Three doses required by the age of two. Four doses required for school entry.

Pertussis: Four doses required by the age of two. Five doses required for school entry.

MMR (measles, mumps, rubella): One dose required by age of two. Two doses required for school entry.

Varicella (chickenpox): One dose on or after first birthday for daycare, preschool and school entry, unless child had already contracted chickenpox.

Hepatitis B: Three doses for daycare, preschool and school entry.
