Permission to Use Sun screen

Children should arrive to my home daycare with sunscreen already on. But I know how Maine weather is and the morning can start out cloudy, drizzly or rainy and then later in the morning the sun will pop out brightly. So for those days when your child arrives in the morning on a wet icky day and isn't wearing sunscreen and then the sun comes out if you would like me to apply sunscreen?

- Yes, please apply sunscreen to my child as needed
 NO, do not apply sunscreen to my child.

You have my permission to apply sunscreen to my child, _____, I will place some sunscreen in my child's box. If there is no sunscreen in my child's box then my child may not receive any sunscreen and could risk getting sunburned. I will label my child's sunscreen as I know it could get lost otherwise.

It is also a good idea to provide a sun hat for you child through the summer months. Make sure I know your child has a hat or I may over look it and your child may not end up wearing it. I do not check 12 boxes each day for new items, it is just impracticable. Please make me aware that something new has been placed in your child's box.

P.S. Please make sure on sunny days your child comes with suntan lotion already on as we will assume the children have it on and if they don't they could get a burn. I have up to 12 children on most days and just do not have the time to apply lotion to all these children. Plus I worry about getting it into their eyes. I would feel more comfortable if you applied your own child's suntan lotion. On rainy days that turn out sunny we will put suntan lotion on the children if you have some available for me to use in their box.
